ANNUAL REPORT 2020

IMPACTING LIVES - CREATING FUTURE

OUR MISSION

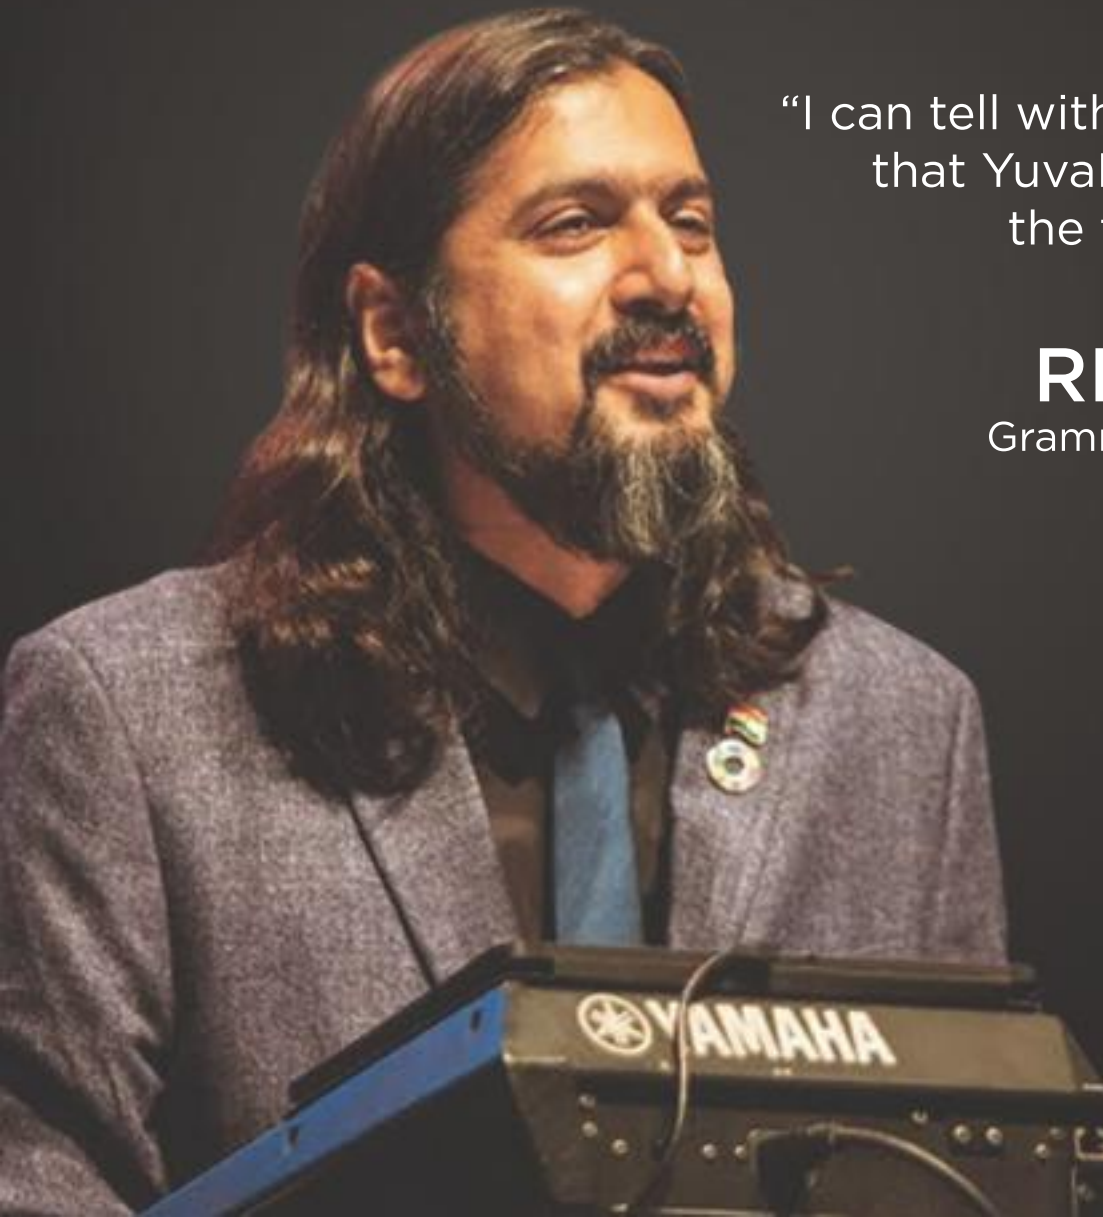

Investing in lives of underprivileged children and young people with compassion through holistic care, education and developing vocational skills.

OUR VISION

To empower each child and young person fulfill their highest potential, to live and work with dignity, hope and compassion.

“I can tell with full conviction
that YuvaLok will change
the future of India.”

RICKY KEJ,
Grammy Award Winner

FROM THE DIRECTOR'S DESK

■ ■ ■ ■ IMPACTING LIVES, CREATING FUTURE!

CELEBRATING 25 YEARS!

Dear Friends of YuvaLok Foundation Bangalore,

Welcome to *The Schools that Make a Difference!* YuvaLok High School, Hennur, Bangalore, part of the YuvaLok Foundation exists to provide a college preparatory high school education to students with limited financial resources. Opening our doors to the Bangalore community in 1994, we are proud of our alumni and the many accomplishments they have achieved to date, and we are excited about the future. Our mission and vision is guided by a desire to provide quality education to every boy and girl who come to our schools in different parts of Karnataka.

This year we have 1700 children, and young women, not forgetting their families, at our eight schools and the three **'Threads of Life'** tailoring institutes. A good number of our former students are in college with the ambition of making a mark in society. Last year one of our students, Varalakshmi, completed her medical degree and is now serving as an intern Doctor. I am thrilled to share that this academic year three of our students stood out with distinction in the State level High School examinations – **Priyadarshini 89.76%; Aishwarya 82.4% and Arathi 79.36%**. These young ladies will pursue their studies in college with support from the *"Sarojini Rajshekhar Scholarship Fund."* The YuvaLok Foundation movement empowers students to fulfil their life's dreams. Their success impacts numerous lives - the students, their friends and siblings, parents of students, and the broader community.

"In a world where the social fabric is fraying, YuvaLok Foundation weaves it back together. Businesses and Foundations such as **TARGET, Cavness Investments LLC, Prione Business Services, Hermien's Helping Hand Trust, Flatworld Solutions, Timpany Foundation, Movement Mortgage, FG Trust, Shared Hope, Karis Management, Stichting Pharos, Stichting YuvaLok-Child** and a host of families and individuals. **Global Hands, UK** initiated a generous supply of garments through **Herbal Life. The Sandbox Christian Giftshop**, donated a variety of supplies like T-Shirts and gift items! These contributions made a huge difference to children and parents who lack the means of providing such necessities for themselves. You help us keep our vision alive. Thank you for your gracious support. *My Sincere Thanks to our Board Members and Advisory Council for using your skills and influence, to guide us and ensuring we are on the right track!*

The best way to know and understand how the YuvaLok model is breaking the cycle of poverty is to witness it in action. I invite you to be our guests on a tour of our schools and vocational training programs. When you have the chance to meet our students, our faculty and staff, you will understand why the *YuvaLok Schools Make a Difference.*

Warmest regards,
Sam Rajshekhar
Executive Director
YuvaLok Foundation

Presenting memento to the Founder and Co-Founder Sam & Beulah Rajshekhar on completing 25 years

INVESTING IN EDUCATION

SCHOOLS:

📍 HENNUR

YUVALOK SCHOOL:

We empower underprivileged children through quality education and nutrition, we aim at developing a balanced set of capabilities for children, so they become economically productive, develop sustainable livelihoods, contribute to peaceful and democratic societies and enhance individual well-being. With the support of corporates like Target, Pharus Trust, YuvaLok Child, MTCF, and many other donors and supporters, we continue to provide quality education with free textbooks, notebooks and uniforms. We also serve nutritious meals including a nine-grain breakfast porridge and lunch. Transport is provided to children in Std. 4 and below.

In the academic year 2019-20 with the support of Yahweh Solutions, Bangalore, students were introduced to the smart boards in classrooms. We have a well-equipped computer lab to urge the students into the foray of advanced computer skills. To provide the best learning experience, students require both indoor instruction and outdoor physical activities. We have a 3000 sq. ft. of land next to our school building gifted by one of our advisory members Dr. Sajan K. George, which we utilize as a playground for our students.

Teachers Training Using Smart Board

In order to develop a scientific spirit and curiosity in students we held a science exhibition in our school with around 40 students from Standard 5 to 7 participating. YuvaLok celebrates each festival vibrantly and merrily. Our students won many prizes in various quizzes and competitions. We held a painting competition from standard 1 to 10 organized by CAPULLO.

NASSCOM PROGRAM

On the occasion of remembrance of Indian Hockey legend, Dhyan Chand, Sports day was organized in the school to promote the overall development of the students and inspire them to adopt at least one sport. In Zonal level sports competition, our higher primary students competed with 20 other schools and our boys Kabbadi team were the winners. At the Cluster Level Sports Meet, both boys and girls of our school participated and won prizes in different sports.

Pratibha Karanji (Cultural and Literacy Competitions)- Inter-School Competition conducted at Sadhana Vidhya Kendra, Thanisandra. 52 students participated from our school in various solo and group competitions and our school won the prizes in Kolata singing. Last year, with the cooperation of NASSCOM Foundation, which is a pioneer in the domain of empowering people via the tools of technology, a program was organized. The program rightly named “Girls Innovate for Tomorrow” inspired girls from standard 5th to 10th to try their hands-on tinkering with technology.

STUDENTS OF MARNIX GYMNASIUM, ROTTERDAM, THE NETHERLANDS, SHARED THEIR KNOWLEDGE

This is another great example of impacting lives. This group of 14 boys and girls and two teachers spent 10 days in February this year sharing their learning with our students. They saw that the knowledge they have is shared with the world for its betterment. We are grateful to the Principal, teachers and Management of Marnix for the vision they have not only for their own people but also for the world.

OUR TEACHING STAFF ARE COMMITTED TO CONTINUALLY BETTERING THEMSELVES

Look around YuvaLok Foundation and you'll see people who love their work and relish it. The result, we succeeded in changing the world for the better. It's critical to note that members of our staff who've made a real difference aren't all privileged, advantaged or "special" by any stretch. Many come from disadvantaged families, crushing circumstances and limited capabilities, but have found ways to pick themselves up and rise above their circumstances to transform their own lives and those around them. A majority of staff at Bangalore, Chamrajnagar District and Bhadravathi, are qualified, trained, and experienced in their respective professions. However, they acknowledge that they are not perfect and are willing to be continually bettering themselves.

During the year we had Tiffany Clark of Development Associates International (USA), for her workshops on team building. Our long-time friend and supporter, Nel Antonides from the Netherlands shared her expertise in counselling and human psychology. The inspirational talks given by Colin Clark, accompanied by his wife Daphne from the UK were truly motivating. Our sincere thanks to them.

SUCCESS STORY

ABHINAYA K

Abhinaya K, a girl who has a desire to be a leader of the society and has an aspiration to become a collector one day. She lives with her parents along with her three siblings. Her father is an auto-rickshaw driver and the only earning person in the family. Abhinaya's parents always wanted a quality education for their children, however, due to financial restrictions, they were unable to afford a good school. Her parents were so happy when they came to know about YuvaLok, as it provides a quality education that combats poverty and inequality in society.

Abhinaya started her journey with YuvaLok from class Nursery, and now she is in 10th standard. She has established her leadership, time management, and team skills qualities. She has been an active participant in all school activities, be it sports, or other fun and learning activities. Abhinaya took on the role of captain of the house and also participated in a program organized by NASSCOM Foundation.

Due to her adequate grasping abilities, she learned to make a robot and some innovative ideas about technologies in this program.

In her words "opportunities and platforms provided here equipped me to fight the battle of the outside world. Abhinaya is happy and feels fortunate to be a part of YuvaLok where she can grow and excel in life.

OUR PROUD ALUMNI:

It is always a great feeling to see our alumni succeeding in their professional lives, and each graduate story is unique and powerful. Some of them are working with very reputed organizations like Dell, HPE, Wipro, and Amazon, while others are doing well in the medical fields and become successful entrepreneurs. At YuvaLok, we are proud of our alumni who stand out for their professional accomplishments, contributions to their communities and beyond.

ALUMNI TESTIMONIAL

YuvaLok was so kind to allow my siblings and me to join the school approximately 20 years ago. I started my journey in YuvaLok high school from standard two and graduated in 2010. Today, I am working for H.P.E. in Bengaluru and without the fundamental school education that I got at the right time, I wouldn't have achieved all these milestones.

I am truly blessed to be a former student of this school and addressing Sam Rajshekhar sir, who founded this institute and has invested his life for our well-being. I'm thankful to him for his heroic vision that is transforming the lives like mine. Words are powerless to express my gratitude for the teachers who have made an enormous impact on my life. I observed it is love that motivated them and this is what inspired me most. Maybe I was lucky enough that my financial situation led me to this thrilling journey. I carry all these lovely experiences with me for the rest of my life and will always be grateful for YuvaLok.

📍 KANNUR

YUVALOK SCHOOL

The majority of the parents of our children at Kannur School are either daily wage earners or laborers, who are migrants from different states. YuvaLok is striving hard to reach these communities so that their children can get education and nutrition. In the academic year 2019-20, a total of 104 students were on roll and benefited from quality education, nutrition, health, and hygiene.

DAVID RAJ

This five year old boy, David Raj lives with his father and mother in Geddalalahalli, North Bangalore. His parents migrated from Tamil Nadu to Bangalore in search of better work for their livelihood. David's father has mild mental retardation, and the mother has blindness in her one eye. David's father is working as a gardener and the only support of his family. At times, it becomes so difficult for his parents to feed even a small family of three in the meager amount of income. But his parents ensured that their only child gets proper education so that he can get better life which they couldn't afford for themselves. David's parents were so happy to know about YuvaLok School, as they had hope to afford and to give their child a good education.

David started his journey with YuvaLok in 2019 and now studying in UKG. He was very fearful and reluctant to come to the school. With the support and encouragement of his teachers, David is making progress in his behavior. He is not only happy to go to school, but also doing well in his studies now. Each day David's parents hear stories from his son about the fun, adventures, and learning that he has experienced, reinforced by the photos and stories that the teachers share with them. According to David's parents, "YuvaLok addresses the educational needs of each child as well as their emotional and social wellbeing. It is a wonderful organization with very dedicated and caring staff. Our child has learned so much and developed as a confident individual since attending this school." David's parents are very happy with the school and the management. They are incredibly blessed to have their child attending YuvaLok School.

📍 BHADRAVATHI

GRACE PUBLIC SCHOOL:

This school runs in partnership with YuvaLok and is situated at Bhadravathi in the Shivamogga District of Karnataka State. Mrs. Ramola John is the headmistress in this school and 11 teachers are appointed here. They have classes from LKG to standard 8th. A total of 212 students were on roll and benefited from quality education, nutrition, and healthcare support in the academic year 2019-20. Some of these students belong

to the Gypsy community called 'Hakki Pikki' (a semi-nomadic tribe) and are from very poor backgrounds. Despite many hurdles and obstacles at their homes, they put all their efforts to grab the opportunities and eventually realize their dreams. This school is a blessing to the poor students as they have good facilities to learn and the privilege of being taught in the English Medium. Parents are very happy with their children's performance here in this school.

📍 CHAMRAJNAGAR

YUVALOK SCHOOLS:

Since 2000, Chamrajnagar District has been subject to severe drought conditions. The main occupation of this area is agriculture, and due to insufficient rainfall, it's being affected severely. As a result, the situation led to poverty and debt, and the farmers' children are deprived of education and nutrition. YuvaLok has reached these communities and are providing good education and nutrition to these children. We engage our members

to promote the education, helping parents recognize the value of sending children to school. By training teachers, designing curriculum, and improving school management. YuvaLok ensures that students need to lead healthy and productive lives. We support families with income-generating activities so that they can afford to let their children attend school. Hence, we have launched a natural farming program that is benefiting their parents too. YuvaLok has five schools in Chamrajnagar - St.Peter English School - Nagavalli, Nirmala Higher Primary School - Chatipura, Nirmala Higher Primary School - Kudluru, Little Star Nursery School - Gulipura and YuvaLok School, K -Gudi.

All schools are running as English medium except for YuvaLok School, K -Gudi, which is in the Kannada medium. Around 670 students benefited from quality education and nutrition in the last academic year 2019-20 in all these five schools. These students come from a poor background, and their parents are mainly from an agriculture background. With the support of YuvaLok Child and Pharus Trust, a new building for the school is being constructed, as the old one was dilapidated. We have also extended three more classes in these schools. Our "Anna Vahini" program benefits the children of all our schools as well as the elderly people at Chamrajnagar. Our 7th standard Upeksha got selected in the district level Shimoga Science competition with her idea to prevent accidents in the ghat area.

GROW TO LIVE NATURAL FARMING PROGRAM

To support the parents of our students in Chamrajnagar, we have introduced a natural farming program Grow to Live, which benefits the farmers especially when this area receives scanty rainfall. Thanks to Dennis Prabhakar for his expertise. Most of our students; parents are in agriculture and this program trains them in natural farming. More than 47 farmers were imparted with efficient and economic farming techniques and methodologies, so they can uplift their living standards, and come out of poverty. This holistic approach helps them improve the productivity of natural resources and soil health besides quality food. Natural farming is a better choice for areas like this, as it utilizes local resources in an optimum way to maintain the sustainability of the system and the health of the environment.

📍 KAMAGERE

YUVALOK SCHOOL:

YuvaLok has partnered with the school management in Kamagere, a village in Chamrajnagar District in Karnataka. This school was established in 1890 and over the past many decades stands for meeting the educational needs of the local community. YuvaLok is making an effort to improve the quality of the education of this school and ensures that the children of the local community have the opportunity to go to school and acquire the knowledge and skills they need to lead healthy and productive lives. We are planning to extend the classes and change the medium of instruction to English.

📍 THE NETHERLANDS

Pharus which in Latin signifies lighthouse, with the assistance of YuvaLok Child of the Netherlands is putting all their efforts and perseverance in providing the best quality education, academic infrastructure, and nutrition to the students. With the highest degree of gratitude, their assistance helps us deliver economical yet best quality education to the underprivileged students of Chamrajnagar district in the state of Karnataka. As an ode to their heartiest contributions, we have dedicated the new building to the Glory of God by Pharos Trust and YuvaLok Child-Netherlands. We were able to extend three more classes in Chamrajnagar School with the support of Pharos Trust and YuvaLok Child-Netherlands. Also, poor families who suffer perennially with drought can send their children to school regularly. With this we are empowered to provide quality education and nutritional meals to our students.

Stichting
PHARUS

ANNA VAHINI

FEED A CHILD, CREATE A FUTURE

With its inception in 2007, our Anna Vahini program intends to provide nourishing and wholesome meals to children, at all times. We at YuvaLok comprehend that the first meal of the day should be equally nutritious and appetizing, so we have drafted a proper schedule of the nutrition we provide through expert dietitians and medical records of the students. We provide every student a glass of multi-grain porridge, before their class starts. With a steaming hot, nutritious mid-day meal we complete two-thirds of the nutritional intake of the day.

Protein is an essential part of the meal for growth; therefore, we provide eggs once a week. Through our efforts, supported by the MTCF and YuvaLok child, Netherlands malnourished students have undergone radical transformation within the first few months of admission. Serving a nutritious breakfast porridge and a mid-day meal Monday to Saturday, to 1700 hungry children this past year may seem like a drop in the ocean of worldwide hunger crisis but has had an enormous effect in these lives which will go on to create a bright future for them.

We are grateful to God that in this academic year we were able to start mid-day meals through our Anna Vahini program at Grace School, Bhadravathi. It's a great joy for us to provide the nutritious meals to the children of this school as well.

HEALTH AND HYGIENE

Strides towards a disease-free future: A bright future is built upon the foundation of a healthy body and a peaceful mind. In our initiatives through cooperation from the primary health care team, our students and staff were administered Diphtheria and Tetanus vaccines. For promoting self-health care and women's hygiene, sanitary napkins were distributed amongst the girls. Through the cooperation of the District health department, a health awareness program on "Effects of Tobacco" was organized for people of the society and students. Speech competition and discussion on the spread of dengue and malaria was organized to promote awareness. With assistance from Shankara Eye hospital, Bengaluru eye examination of all the students was done at all our YuvaLok schools.

Health and Hygiene Program by
Ms. Seema (From Washington, USA)

Eye Checkup by Lions International

With the effects of global warming emerging into everybody's perspective as temperatures are soaring higher and higher, students needed to be made aware of the health steps to take. With the assistance of the local health care team, students were imparted information about the benefits, usage, and procedure of making ORS or Oral Re-hydration Solution. A self-Hygiene awareness program was also conducted to make students aware of the usage of the toilet and the importance of hand-washing so that they become the flag bearers of healthy changes in their societies.

With the cooperative efforts of the PHC team, on the occasion of the celebration of De-worming day, students were informed about the worming and De-worming processes. They were also made aware of the precautionary measures they can take to control the issue.

At the culmination of the event, Albendazole tablets were distributed among the students. Those who were found absent were provided with the tablets in the following week.

TARGET INDIA SPONSORED MULTI - SPECIALITY HEALTH CAMP

With an intention to promote the well-being of our students, their parents and the community along with our staff, we hosted a free Multi-Speciality Health Camp with the support of Target India and HelpAge India. This camp provided free tests for diabetes, blood pressure, skin, women's health, cardiac, eye-care, ENT and Cancer screening. The response to the camp was very good, wherein over 750 people had a total health check-up. Medicines were freely distributed and those who needed follow-ups were referred to specialists for further treatment. About 160 spectacles were given free to those who had visibility issues. YuvaLok tries to conduct this free medical camp every year for all students, staff, parents and also for poor members of the local community.

Target India staff visited our High School in December at Hennur and had a half-day session for students on hygiene and a separate session for girls from Std 6 and above on the subject. The girls were all given a pack of sanitary napkins. Target staff also distributed a hygiene kit to all the students and for each class a large hand sanitizer bottle along with liquid soap. This came at the right time as 2 months later in February the COVID 19 pandemic hit and these were put to good use.

Multi-Speciality Health Check-Up

VOCATIONAL SKILLS :

"Threads Of Life" A Tailoring Program & Wellness Center - Beautician's Training Program

The empowerment and autonomy of women and the improvement of their political, social, economic and health status is a highly important end in itself. In addition, it is essential for the achievement of sustainable development. YuvaLok supports the social and economic empowerment of under-privileged women through providing them twelve months of training in tailoring (Basic and Advance), beautician skills, spoken English, computers, health and hygiene, life skills and awareness of women's rights. On successful completion trainees are presented a sewing machine. We run the program "Threads Of Life" at our three centers:

📍 THREADS OF LIFE, BHAVIKERE

This center empowers the poor women in Chikmagalur District of Karnataka. As of now, two batches have graduated successfully from this center.

📍 THREADS OF LIFE, HENNUR

This center meets the needs of poor women in Hennur Bande area around YuvaLok Service Center.

📍 THREADS OF LIFE, KANNUR

This center empowers the poor women in North Bangalore.

📍 THREADS OF LIFE, BHADRAVATHI

The newly introduced tailoring Institute at Bhadravathi 'Threads of Life' did really well under the leadership and instructions of our staff trainer Ms Ruth Billa with 12 young ladies completing their course. The second training course is underway and will be done by the end of December 2020. We are grateful to Shared Hope, Scotland for investing 'seed money' in this project. The women attending this course are mostly uneducated but have a deep desire to learn a trade and support the income of their families.

KAVYA

SUCCESS STORY

Kavya has many dreams in her eyes. She is energetic with a zeal and hope to become a self dependent woman. She wants to support her family financially too. She resides in Hosuru Bande Kannur Village, Bangalore, Karnataka with her children and husband.

Due to financial difficulties at home, she is not able to manage her day to day life. Her children are studying in YuvaLok and through parents-teachers meet, she came to know about this tailoring program which empowers young women. She expressed a lot of interest in learning sewing and had the passion to do something for herself and her family. After the successful completion of her course from YuvaLok, she received a free sewing machine. A small boutique in her home will benefit her in the future. Now she commands great respect from her family as well as other community, as she is financially secure. In her words "This course has greatly helped me as I can stand on my own feet with confidence". YuvaLok takes great pride in women like her who have the courage to challenge the trivial norms of the society and emerge stronger.

REPORT ON COVID-19 RELIEF PROJECT:

This year was not an easy year for all of us, as the coronavirus pandemic ripples around the world and affecting all of us. It has been a crippling effect of the COVID-19 lockdown on the vulnerable sections of the workforce, like the daily wagers and the migrant workers. Since the government declared a nationwide lockdown on March 25, 2020, impoverished and daily wage earners are either out of their jobs or have seen a drastic drop in their earnings.

A YEAR OF CELEBRATION!

2020 was an exciting year as we celebrated the 25th anniversary of the work of the YuvaLok Foundation. On the occasion of our celebration, Mr. Ricky Kej (Grammy Award winner, Music Producer, and Environmentalist) was our chief guest. Ms. Shubha Rajan Sriram (Mrs. Karnataka 2016) also graced this special event with her presence. The celebration was also an opportunity for the different stakeholders as well as the former staff of the organization to share their thoughts and experiences. Many of our students showcased their talent through singing and dancing.

Mr. Ricky Kej (Chief Guest) is with YuvaLok Foundation's Founder and Executive Director Mr. Sam Rajshekhar

Ms. Shubha Rajan Sriram (Mrs. Karnataka 2016) is with YuvaLok Foundation's Finance Director Ms. Shobha Louis

The Silver Jubilee celebration was a moment of pride in celebrating 25 years of our journey of serving underprivileged children and young people. It was truly an exciting time for all of us to celebrate God's faithfulness.

Over the years, hundreds of individuals from a variety of fields and walks of life have partnered, volunteered, and supported YuvaLok – and this event stood as an occasion to thank our donors, patrons and supporters.

Longtime Supporters of YuvaLok Foundation

THANK YOU!

MS. SHOBHA LOUIS

Another year has gone by. The year 2019-20 has been a year which I think was preparing us for what we all were about to experience. Looking back, it was a year, where God showed that He is always there for us, He will sustain and protect us and see us through the difficult times as well.

We want to take this opportunity to thank our donors, Foundations and Corporations who played a great role during the last year. Such as MTCF, Denver Leadership Foundation, TARGET Corporation, Timpany Foundation and Marnix Gymnasium.

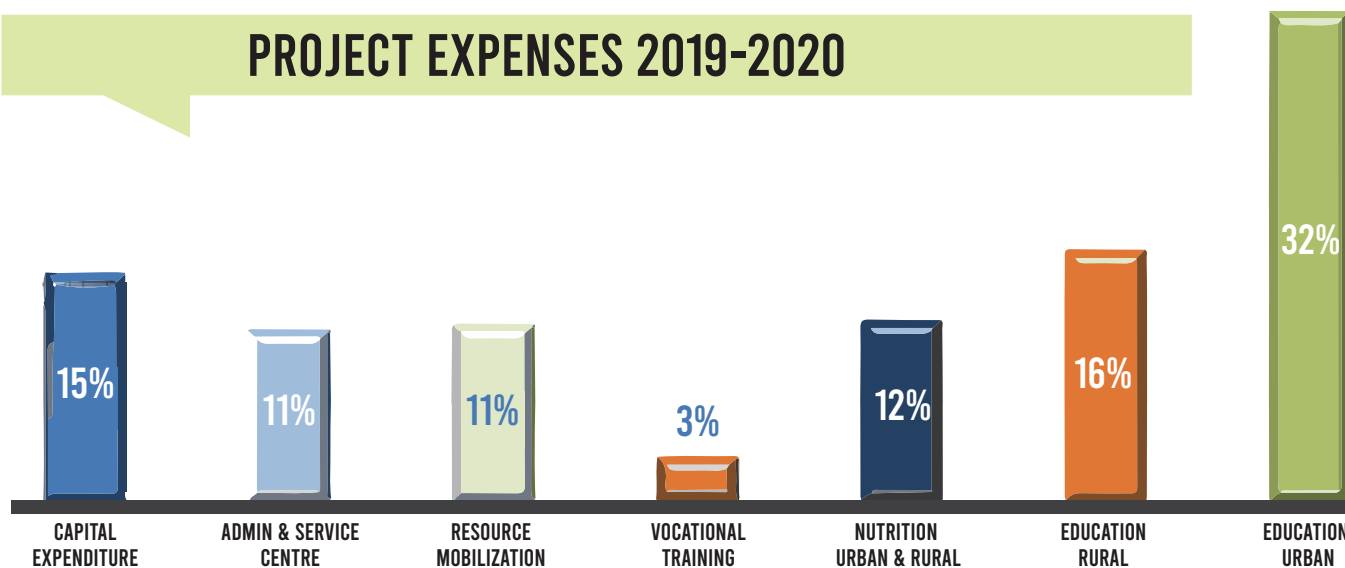

Our Board & Advisory members have always been a huge help to us in ensuring that we follow our mission, policies and statutory requirements with their time and generosity. Our grateful thanks to them.

Our long-time friends Nina & Melvyn, Dick and Hermien, Colin & Daphne and Gerard & Nelleke, Frans & Tineke, and John & Pam, have always stood by us graciously with their prayerful support. Our sincere thanks.

We were greatly encouraged with the visit of our friends and supporters from 'Flatworld Solutions' & 'Movement Mortgage', USA, 'Shared Hope' Scotland, 'Pharus Foundation' and 'YuvaLok-Child' from the Netherlands.

There are many more friends not mentioned here whose committed and consistent support means a lot to us.
